## Additional Sermon Notes

### Core Value 6: A Commitment to Family

We are a family-oriented church which tries hard to train God's people to live effectively in Christian families. Our children's and youth ministries place an emphasis upon growing young people God's way; yet designed to augment, not compete with, parental responsibilities. We will provide both ministry opportunities and teaching/learning programs for all members of the family-youngest to oldest as well as those who are unmarried. In addition, it is our belief that strong, healthy marriages and a commitment to the sanctity of life are additional components of family commitment.
